Product Description

This is face gym towel.It is a sports towel.Made from high-quality microfiber, this towel is lighter and more compact than ordinary towels. Its unique terry texture absorbs more water than regular cotton towels. It dries three times faster than traditional towels, and the best way to absorb water is by patting, not rubbing. This sports towel is less linty than cotton towels, so there's no lint or debris clinging to your skin.It can be hand or machine washed, tumble dried on low heat, and is rated for 500 washes. Wash separately before first use, especially for dark colors. All edges are reinforced to prevent tearing after washing.Many cotton towels leave small fibers in the body after cleaning, and ultra-fine fiber towels can keep them truly dry and clean, without any fuzz.The fabric structure of the gym towel is light and breathable, which can ensure air circulation even during intense exercise such as spinning, kickboxing, and high-intensity interval training (HIIT), saying goodbye to stuffy discomfort.Our towels are not only headscarves and face towels, but can also be used as headbands, wrist guards, and neck covers. They are multi-purpose and can meet your full range of sports needs.Our towels are sewn by hand and advanced equipment. The surface is made of ultra-soft 100% microfiber polyester fleece, the edges are pressed edge technology, and the back of the towel is made of 100% cotton terry backing, which is soft, comfortable and extremely absorbent.Our facial gym towels have excellent craftsmanship to ensure that our towel kit will not fuzz even after prolonged use.

Product name	Face gym towel
